Non-Discrimination Policy—Employment at the College and access to its programs or activities shall not be limited on the basis of race, color, creed, national origin, religion, age, sex, sexual orientation, political affiliation, or physical disability. All recruitment and admissions material complies with Section 504 and ADA.

Inquiries regarding EEO should be directed to 223-7572 or 1-800-735-2989 Texas Relay Service (TDD)

Determination of Residency

1. You will be designated as an in-district or out-of-district student according to your current address when you register. The current address must be the address where you live. ACC District boundaries coincide with the Austin, Del Valle, Leander and Manor Independent School Districts. If ACC taxes are shown on your current property tax statement, this documentation is sufficient for in-district status. Please note that all P.O. Box addresses are out-of-district.
2. To register as a Texas resident, you must have established residency in accordance with the Texas Education Code. If you are classified as **out-of-state** at another Texas college or university, you probably will be out-of-state at ACC as well.
3. Texas Higher Education Coordinating Board rules require that all students complete, sign, and date the Residency Information Form.
4. Your residency information will be audited by the Admission Office. Additional documentation to establish residency may be required by that office.
5. If you are not a U.S. citizen, you must furnish a copy of the front and back of your resident alien card with the Residency Information Form. If you are holding an I-688A or I-688B or I-766 card, you cannot register as a Texas resident.
6. If you are claiming Texas residency based on military status, you must provide acceptable proof of that status now and upon each subsequent enrollment.

Attention Applicants—Important Immunization Information

Texas requires state-supported colleges and universities to inform applicants for admission concerning diseases that may be preventable by vaccines such as diphtheria, rubeola, rubella, mumps, tetanus and poliomyelitis. Austin Community College is concerned about your health and provides the following information for your use:

MEASLES (rubeola, Red Measles, Hard Measles, 10-Day Measles) is a highly contagious viral disease. Antibiotics are not effective as treatment. Recent outbreaks of this illness have included many hospitalizations and several deaths among college-aged persons. Because of this, it is recommended that students have two doses of the vaccine prior to beginning college classes instead of just one, which most young people have. The measles vaccine most often is given in combination with the vaccines for mumps and rubella which are also caused by viruses.

TETANUS (lockjaw) is the illness caused from the poison produced by a bacteria and is a very difficult illness to treat once it occurs. Prevention is the most appropriate choice. The vaccine today is effective for about 10 years, at which time a booster shot is given. It is now common for older adults to develop tetanus in the United States because many adults do not seek the recommended 10-year boosters. The tetanus vaccine should be given in combination with the diphtheria vaccine.

POLIOMYELITIS immunization is not routinely recommended for persons 18 years or older. However, if travel to other countries is planned, a physician should be contacted for specific recommendations.

Although these immunizations are not required, ACC strongly recommends that you contact your physician or public health clinic to make sure that your immunizations are current before you enroll.
